Potty Training; you are aware with puppies they have to go outside to potty every hour if not sooner in an hour till they reach a year old? You should not scold a puppy for peeing just because as humans we don't pee on the carpet or the bedding. We recommend you start your potty training as soon as you pick him/her up from us.

I am aware that puppies need constant attention to potty training till age 1.

I need more education on potty training

Crate Training-I understand that a dog needs a form of a crate training for itself and for you as well. A crate is a safe place for a dog when your not home, on a vacation, in a vehicle. It makes life a little bit easier in the long run.
